What support will I receive?

> **You're not volunteering on your own.**

As a Scottish Food & Drink Ambassador, you'll become part of a growing network of volunteers across Scotland's food and drink industry.

The programme is coordinated by **FDF Scotland** in partnership with **STEM Learning** and **SSERC**, giving you access to training, resources, guidance and ongoing support to help you volunteer with confidence.

You'll have access to...

A supportive community

Connect with fellow Scottish Food & Drink Ambassadors, attend drop-ins hosted by **FDF Scotland, STEM Learning and SSERC**, and learn from others across the network.

Training and onboarding

Receive induction, guidance and training from **STEM Learning, SSERC and FDF Scotland** before your first activity.

Resources and activity ideas

Access ready-made resources and activity ideas, or work with us to create something that reflects your expertise.

Ongoing support

Questions? Need advice? Emma and Moira are here to help throughout your Ambassador journey.

Flexible volunteering

You decide what you do, when you do it and how often. One activity a year is enough—or volunteer more if you'd like.

Ready to get involved?

Whether you have an hour to spare or want to volunteer more regularly, we'd love to hear from you.

Contact Emma and Moira or register directly through the **STEM Learning platform**.
