

# Growing a future where life in all its flavours can thrive.

What we achieved in 2023...

Read the full details in our 2023-2024 Impact Report.

**Tilda**

**1268**

rice farms joined our Sustainable Farming Project to cut emissions, water and energy use.

**↓ 27%**

decrease in water and electricity needed to irrigate rice crops.

**↓ 80%**

lower environmental footprint due to improved crop protection practices on farms.

**↓ 36%**

cut in CO2 equivalent emissions per kg of rice compared to traditional rice farming techniques.

**ZERO WASTE TO LANDFILL**

and 87% of waste from our UK manufacturing sites is recycled.

**960,000+**

meals worth of rice delivered to feed communities in need with The Felix Project.

**100%**

of our electricity for manufacturing came from renewable sources.

**WE ARE A B CORP!**

Tilda met the high standards of social and environmental performance required to become a B Corp.
